## Held For Slaying Foster Mother

ATLANTIC CITY, N. J., September 17.—Mrs. May MacNeill, was arrested at her home in this city yesterday for the murder of her foster mother, Mrs. Hannah Seeley, whose body, with the throat cut was found beside two bloody butcher knives on the porch of her home at Egg Harbor, N. J., a few days ago.

Mrs. Seeley, was declared a suicide at the time but another investigation led to the indictment of Mrs. MacNeill.

Mrs. Seeley was a sister of E. A. Parker, county clerk. Neighbors found her body on her front porch when they hurried to the Seeley home with medical aid for Mrs. MacNeill, who they said had asked them to bind up wounds. Mrs. Seeley had indicated upon her death that she was a suicide.

The "suicide" verdict was returned on the theory that Mrs. Seeley had slashed her own throat after a quarrel with her foster daughter.

Robb of Boston, is under arrest charged with performing an illegal operation, and Dr. Dalva Squire of Brookline, charged with being an accessory before the fact.

Bowen, whose condition is reported to be serious, told the chief of police at East Bridge-water that he had been lying about him.

Dr. Robb was taken to the hospital to see him yesterday but the police declined to say what transpired.

### Get Shorter Shifts

YOUNGSTOWN, O., Sept. 17.—(By the Associated Press)—The second day's work toward elimination of the 12-hour day in the steel mills of this district was taken today when several thousand workers changed from the long day to 10 hour and 8 hour shifts. A month ago men in the continuous operation departments, changed to three shifts a day, and today's movement affects chiefly the pipe mills, in which a 10-hour day is to be established for the most part. After today only a small percentage of the 45,000 steel workers in the Youngstown district will be working the 12-hour day, and the hours of those few will be reduced as soon as additional labor can be obtained.

## America Opens Doors To Japanese Quake Survivors

SEATTLE, WASH., Sept. 17.—(By the Associated Press)—America opened her doors in quiet pity to the first of the victims of the Japanese earthquake when 122 plucked-faced survivors, carrying all they could salvage, were admitted to the city. They were escorted to the city by a band of volunteers, their homes demolished and perhaps a wife or husband or child dead or missing, it was another story. But to all it was relief.

To some of them a black interlude was ended—they were at home again and the struggle of the last half month could be forgotten and dismissed. To others, destitute, their homes demolished and perhaps a wife or husband or child dead or missing, it was another story. But to all it was relief.

The Jefferson, ten days out from Yokohama, was the first vessel with earthquake victims to reach an American port.

### Blames It on "Devils Of The Deep"

SANTA BARBARA, CALIF., Sept. 17.—(By the Associated Press)—Strange currents flowing around Point Honda, where seven naval destroyers were stranded the night of September 8, still are talked of among the crews of fishing boats and small coastwise vessels which put in and out of Santa Barbara daily.

Captain Joseph Nocetti, commander of the fisherman North America, put in the harbor here yesterday after a week's cruise. He probably has as extensive knowledge of the Santa Barbara county coast, as any man, and it is his firm conviction that the devils of the deep were playing diabolical tricks on the night the naval vessels went on the rocks.

"That current along Honda was not where it was the day before," he said. "Something happened to it. One day it went one way, another day the current is no good, when currents act like that. All ships that night went straight to the rocks when compass pointed to open sea." Captain Nocetti's own craft went ashore before the destroyers struck. That happened at a time when he could have taken an oath, he said, that he was several miles off shore. Only the fact that his boat was of light draft, saved it from being wrecked.

## Donahey Demands Gas Price Be Cut

COLUMBUS, O., Sept. 17.—(By the Associated Press)—Seeking to learn why gasoline is being sold considerably cheaper in neighboring states than in Ohio, Governor Donahey yesterday directed a letter to the chairman of the Board of Directors of the Standard Oil Company of Ohio, at Cleveland, asking why "there cannot be a substantial reduction in the retail price of gasoline in Ohio."

In his letter the chief executive pointed out that Ohio consumers are paying around 20 1/2 cents and that he was informed that "throughout the territory of the Middle Western States over which the Standard Oil Company of Indiana operates a generally prevailing price of 16 cents has been established, subject to slight modification in accordance with differential or freight rates."

He also set forth that it would be unjust to cut prices below production costs, but suggested that it possible, market conditions created by surplus production should be made operative here.

### Ship Romance Ends In Marriage

KANSAS CITY, MO., Sept. 17.—(By the Associated Press)—Miss Nancy Jordan, an English girl, was married here Saturday night to Claude Heatherington Clarke, also of England, it became known. Miss Jordan met Clarke last November on a liner while on her way to America with her young son to accept an invitation of Mrs. Frank Warren, of Kansas City, to make her home with her.

The invitation was an outgrowth of an acquaintance between the girl and Mr. Warren, whom she met while he was serving in the United States army overseas.

Mrs. Warren divorced her husband, who is a lawyer here, soon after he was discharged from the army.

The name of Miss Jordan was not mentioned in the divorce proceedings. After coming to America, Mr. Clarke lost track of the young English woman. Last week while in a restaurant in Chicago, he read in a newspaper that Miss Jordan was preparing to return to England. He immediately located the girl by long distance telephone and left Chicago.

Clarke is a son of William Haywood Clarke, shirt manufacturer of Park Hill, Birmingham, England. He came to America to be associated with his brother in business.

Delegates representing locals in each of the three districts of the United Mine Workers in the anthracite coal region are here in convention.

Validation of the terms of settlement was the final step necessary to bring about resumption of mining operations, suspended since August 21, when the previous contract expired and the men were ordered to quit work.

Governor Walton declared in his martial law proclamation that Oklahoma City was the headquarters of the Ku Klux Klan in Oklahoma, and that "it is here where the sovereign power of the state was defied when the Grand Dragon of this semi-military organization publicly proclaimed its substance that the sovereign state of Oklahoma could not break the power of the Klan."

Further asserting that "the power of this criminal organization may be destroyed" and that "the source of the power must be destroyed," the executive is expected to guide the military court inquiry into the Ku Klux Klan state headquarters activities.

## Dog "A Hero"

YOUNGSTOWN, O., September 17.—Sheriff Paul Lyden's police dog, "Fido," is a hero at the county jail today for he is credited with having prevented a jail delivery last night by slinking his teeth into the arm of a prisoner who was overpowering a guard while the door to the cell tier was open, within arms reach of the struggling men.

Deputy George Callahan had entered the exercise corridor of the jail to lock up the prisoners for the night in their cells. As he opened the door to the corridor one of the prisoners, Lloyd Barrett, leaped upon him, "Fido" rushed to the rescue, and as his teeth met in Barrett's arm, the convict let go his hold on the deputy, who promptly overpowered the rebel.

### Auto Plunges Down Embankment; Two Women Hurt

Mrs. Lena Hefner, wife of H. Patterson Hefner of 114 Gay street, and Mrs. Blanche Williams, wife of Charles Williams of 904 Front street, were injured and Arnetta Frances, 10 months old daughter of Mrs. Williams had a narrow escape from injury about five o'clock Sunday evening when Mrs. Hefner's Gray roadster plunged down a twenty foot embankment at the George Arnold farm on the road near McDermott. The two women and the baby, the only occupants of the machine, were caught in the wrecked machine and could not get out until men arrived and removed the top off the car.

Mrs. Williams suffered serious cuts on her right forehead and left cheek and a badly bruised left eye. Mrs. Hefner sustained cuts on her right hand. Four stitches were necessary to close the cuts on her hand. Five stitches were taken in the cut on Mrs. Williams' head and two in the cut on her cheek.

Mrs. Hefner and sister drove to McDermott, where they were parked, and after driving through the village, where they had not visited for several years, started home. A Ford machine containing several men was ahead of them and when the Hefner machine went down the bank they came back and assisted in getting them out. Sanford Dodds, who was camping nearby also came to the rescue and he took the baby out of the machine. The accident is thought to have been caused by a counterweight coming out of the steering apparatus. Mrs. Hefner who was driving could not control the car, then it left the road and went down the steep bank against a stone wall.

Dr. D. C. Coleman of Lucasville, was called and administered first aid. The machine was badly damaged. The top was torn off, windshield smashed and fenders bent.

### Giants And Reds Win

In St. Louis the Cardinals made it three out of four from the Phillies, winning 3 to 2, and the Browns defeated the Senators in Washington.

### Getting A Line On Ironton Hi

The Irontonian says: The Ironton High School Tigers went through another stiff practice Friday evening at the park. Coach Davies is having considerable trouble finding backfield material from among his candidates. So far none of the juvenile, footless, or shown any ability to pass and punt and quite a difficult task is facing the new coach. The development of a good first offense is assured the local coach. The men for the line positions are big, husky chaps willing to work hard to make the grade. This is all that Davies requires, and if the men are

willing to work hard and show what they can do, they are assured of getting a chance in the first game. Cateletsburg which will be the first team for the Tigers to tangle with, are going to present a very formidable lineup. Practically their entire backfield of last year have returned to school, and will be seen in action on the local field. "Pick" lines, touted as being a great back for the high school has dropped from school for some unknown reason. The leaving of lines placed Davies in a difficult position as much depended on the local baseball player.

Ince's "Soul of the Beast" combines the thrilling human appeal of the real and the charm of the illusory unreal. It is the tale of the adventures of a little girl of the circus who has centered all her staved affections in a great lumbering elephant "Oscar." The motherless girl is the drudge of a moth-eaten circus troupe and target for the ill-nature of a bullying stepfather until one night there comes a great cyclone, destroying the entire circus. Oscar and Ruth escape into the Canadian woods where they meet with astounding adventures.

Told for the most part beneath the great trees of the Canadian backwoods, the story is full of the poetry of the outdoor world as well as of dramatic thrills. This Metro picture is one that every member of the family will enjoy to the utmost. But especially will the youngster, for what kiddie doesn't love the circus, with its menagerie of growling ferocious wild animals, its white-tight acrobatic ladies doing perilous stunts on trapezes high up in the dome of the white canvas tent, its grotesque clowns and pink leopards, and above all, its lumbering big elephants?

With the kiddies especially in mind, Thomas H. Ince produced "Soul of the Beast," in which Madge Bellamy, as the little elephant girl, is seen in the midst of the big top atmosphere. A complete circus, from wicked tigers to sacks of peanuts, lends authentic background to the photo-play.

"Soul of the Beast," written by C. Gardner Sullivan, was directed by John Griffith Wray, under the personal supervision of Thomas H. Ince.

### THIS IS ONLY SEPTEMBER 17th, BUT "IT'S TIME TO PUT 'EM ON"

Careful people don't wait for the severe weather to come. They take no chances of heavy cold or pneumonia. When there is warmth within, such as these garments give, warmth without is not so necessary. But warmth is only one of the vital factors of comfort. You will want good fit. This means shapely lines and sufficient elasticity at the necessary points. You will want to see that the seams are flat, that there is no binding or pinching. But, there is no need for YOU to worry about these things, for we have done that for you. These are the sort that give comfort in every way. Underwear for men, women and children.

# Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to "Dolly Wise, care The Daily Times, Portsmouth, Ohio."

Dear Dolly—I see so many people are going to college and I would like to go, too, if my parents could afford it. They don't feel like they can, but they don't feel like they can't. I have everything nice and people think we are well off, but we are just living by the skin of our teeth and keeping out of debt. Now, Dolly, I always thought that we had more money than some of my friends who are going to college and I can't see how they can. I wish you would tell me, as I want to be a teacher, but I can't teach without college education. I am not a public charge, understand, and I won't work my way through school. Want to figure this out with my family and with the public. It is a private affair with me.

**SCHOOL GIRL.**  
I think it would pay you in the long run to borrow the money and go to college this year. If you can't get the money, you can pay it back in weekly installments, or by note every month, or else just pay the interest until you are able to earn the money to pay it back yourself. You could take a two years' course and work during vacation, and make enough to buy your clothes. Or you could go to school one year, then each one and go back and finish the course.

stop to people expectorating on the sidewalks, as they are just living with germs. You can hardly walk down the public streets without carrying millions of germs back to your homes. I think we have an ordinance to this effect, but no one pays any attention to it.

**INTERESTING OBSERVER.**  
Issuing orders and obeying laws do not mean anything in the lives of filthy people who do not know the meaning of the word sanitation. I don't imagine they ever read a book, paper or magazine, and they don't know what is going on outside of their own narrow lives. Each one will have to be given a private lecture on the subject before they will ever realize the importance of "clean-up week" or of keeping things clean every day in the year.

Worried—Your letter was too complicated, or in other words, too "practical" to discuss openly in this department. I think you are as glibly as the first lover. He was probably sincere and thought he was going to land the girl the same as you think now. Then, too, what he did was no more than what you are doing, so you can't denounce him for that. You are all three to blame, for as usual the girl is the goat. She is weak-willed and easily led, and of course you both took advantage of the fact. I think she will be all right if she is guided in the right channel, but I don't believe she can resist temptation alone. If you want her with a vision of the future, you will never be happy. You can never trust her out of your sight, and your life will be miserable. On the other hand, if she never sees her former lover, or is never given a chance to make a mistake, she will probably make you a good wife, at least as good as you deserve. I don't know where you got your idea of courtship or love-making, as the things you mention are not being done in polite society or among respectable people, and the sooner you realize this the better it will be for all concerned. Shame on you!

## Firm, Plump Flesh!

MANY are the eyes that are turned to gaze with keen admiration on the well developed, healthy girl no matter where she may be—on the rapidly moving thoroughfare or gliding gracefully over the dance floor.

All eyes turn because we all appreciate the girl with the figure so firm and plump—the girl with radiantly red cheeks, cheeks that carry a touch of roses from nature's own garden—the girl with the sparkling eyes, keen and sharp—the girl with buoyancy and the swing of youth.

Not necessarily an out-of-doors girl. Just a girl with ever increasing blood cells. Just a girl filled with the vim and vigor of youth.

S. S. S., since 1826, has stood for increased blood strength—rekindled vitality—added energy. Take S. S. S. and watch the bloom of youth return to your cheeks. Watch that flabby, ill nourished flesh fade away before flesh that is firm and plump. Red blood cells will do it. S. S. S. will build them. It contains only pure vegetable ingredients. S. S. S. is sold at all good drug stores. The large size bottle is more economical.

What is more gratifying to all fashion loving women than the knowledge that new apparel modes are now ready for inspection and selection? At the Fashion is evidence of the smartest twists fall frocks have taken; newest suit ideas and wraps from the fullest to the slimmest in silhouette. Hats, skirts and blouses are likewise interestingly different.

Women who are thinking in terms of winter wraps have much to anticipate. Every type may be becomingly fitted for there are silhouettes of perfect straightness, those that flare slightly, and others very circular skirted. Fabrics are both dull and highly finished; trimmings are of rich embroidery or luxuriant furs.

The coat dress, youthful and easy to wear, is just one of Fall's many street frocks. There are bellless types, dresses with contrasting backs and fronts, flounced ones, equally fast and flounced ones, equally fashionable. These are mostly of twill and grant a trimness of which any woman may be proud.

There is every reason why it is practical to buy a suit this season. One of the tailored models set off with a striking hat will serve nicely for dress. Fresh tub blouses will make it excellent for business or street. Almost no costume is more generally becoming, more constantly tried than a suit. And The Fashion is showing a splendid selection. More Tuesday.

There is every reason why it is practical to buy a suit this season. One of the tailored models set off with a striking hat will serve nicely for dress. Fresh tub blouses will make it excellent for business or street. Almost no costume is more generally becoming, more constantly tried than a suit. And The Fashion is showing a splendid selection. Puffed Rice—the morning dainty

## Shot from Guns

Steam exploded grains

Quaker Puffed Rice and Quaker Puffed Wheat are made by Professor Anderson's great process. The grains are sealed in guns, then revolved for an hour in fearful heat. When the grains are shot, over 125 million steam explosions are caused in every kernel.

Airy, flaky—8 times normal size

The grains come out as airy globules, thin, porous, crisp and toasted. The fearful heat gives them a nut-like flavor. And the broken food cells fit all the food elements to digest and feed.

No other cereal dainties with existence compare with Puffed Grains in delights.

Minerals—vitamins—bran

Quaker Puffed Wheat in milk forms a supreme dish for children. Wheat supplies 12 minerals which growing children must have. It supplies the bran they need. And milk is rich in vitamins.

Serve Puffed Grains morning, noon and night. Make whole grains tempting to the whole family.

Serve with cream and sugar. Mix them in every dish of fruit. Crisp and douse with melted butter for hungry children in the afternoon. Millions of children are better fed because their mothers thus make whole-grain foods enticing.

### UMPEETAH, THE MEDICINE MAN

Umpeetah was sitting outside his tepee.

MISTER GALLOP, the cowboy have a story? These kiddies are part fairy, said to Nancy and Nick. "One moonlight night: 'It's too early for bed so let's go over and visit my Indian friend who lives by himself in a tepee near Snow Mountain.' 'Oh, goody!' cried Nancy, clapping her hands, and Nick was so overjoyed he couldn't think of anything but, 'Oh, gee! Won't that be grand!' It wasn't allowed to say 'gee' at all! But he forgot.

As they were riding on their ponies up the narrow mountain trail Mister Gallop said: "The Indian's name is Umpeetah, and he used to be a medicine man. If he's in a talkative mood he may tell us a story."

Umpeetah was sitting outside his tepee smoking a pipe and enjoying the moonlight. "He was in a very good humor and said 'Nice Squaw' and 'Nice Brave,' to the twins and said something which the twins couldn't understand. 'Yes, I'll have a pipe, thank you,' answered Mister Gallop. 'But no kidding, if you please, I'll smoke my own tobacco. Indian tobacco is too strong. There now! Everybody's all hunky dory, Umpeetah. Could we

## JACK DAW'S ADVENTURES—UNDER THE GROUND

"Where is the land of jewels?" asked Jack. "Well, the best way to find out is to go there," replied Goldie Locks. "First of all we will walk over and watch the little land of chain men at work and then we'll go to the land of jewels." And shortly the chain men were rescued.

## BEGIN HERE TO-DAY

Bess Gilbert, Ned Cornet and the latter's fiancée, Miss Hildene, are shipwrecked and they take refuge on an island inhabited solely by a man and his Indian wife, Doomsdorf, master of the island, is brutal. He brings to Ned and the girls that he means to make them his slaves.

The prisoners build a cabin and their master gives them an old stove. Lenore is too weak to work so the entire burden falls to Bess and Ned. They are driven by Doomsdorf until they fall unconscious.

After the cabin is finished Doomsdorf announces that he means to take his prisoners to all his winter trapping. Ned protests that they know nothing of the work but Doomsdorf says they will have to learn. NOW GO ON WITH THE STORY.

"Two of 'em are four-day lines and one a five-day line—that is, they last four and five days respectively to get around. On each one I've built series of huts, or shacks, all of them with a stove and supplies and food, and you put up in them for the night. They are a day's march apart, giving you time to pick up your skins, meat, and so on, as you go."

"You'll be away from me and this cabin for days at a time, but if you're figuring on any advantage from that, just put it out of your mind, the sooner the better. Maybe you think you can sneak enough time to make a boat, smuggle it down to the water, and cast off. Let me assure you you'll have no time to sneak. You'd never get more than a few hours' start; and they wouldn't help you at all on the ice fields! I trust there's no need to mention penalties. You already know about that."

"And maybe you are thinking it will be easy enough to sneak—not trying to catch much, so you won't have many skins to flesh and stretch—maybe hiding what you do catch. I'll just say this. I have a pretty good idea how this country runs—just how many skins each little trader with four trapping. I'm going to increase that estimate by 20 per cent—and that's to be your ultimatum. I won't say what that amount is now. But if at the end of the season you're short—by one skin—look out! It means that you'll have to be about 20 per cent smarter and more industrious than the average trapper."

"But man—" Ned protested. "We're not experienced—"

"You'll learn quick enough. Aren't you the dominant race? And I warn you again—you'd better drop your traps every time you find where a wolverine has been along and eaten an ermine out of a trap."

The man was not jesting. They knew him well enough by now; the piercing glint of his keen, gray eyes, the old fixation about his pupils that was always manifest when he was most to be feared, was plainly in evidence now. Thus it was with the most profound amazement that Lenore's companions suddenly saw her beautiful mouth curling in a smile.

For themselves they were lost in despair. All too plainly Doomsdorf had merely hinted at the cruel rigors of the trapper's life. Yet Lenore was smiling.

Then Ned saw, with a queer little tug of his heart, that the smile was not meant for him.

Lenore was smiling at Doomsdorf. She was looking straight into his gray eyes. Her cheeks were flushed with a lovely pink; her eyes were smiling too; she presented an image of ineffable beauty.

"I'm afraid I wouldn't be much good to you, as a trapper," she began quietly, her voice of glowing sweetness. "I'm afraid I'd only get in the way and scare the little ermines, you call them—out of the corner. Mr. Doomsdorf, do you know how well I can keep house?"

And the wife was not without results. The usual scolding refusal did not come at once to the bearded lips. Perhaps the master was flattered that Lenore was so lame, perhaps he wished to reward her attitude

of friendliness so that Bess might be cast off. Let me assure you you'll have no time to sneak. You'd never get more than a few hours' start; and they wouldn't help you at all on the ice fields! I trust there's no need to mention penalties. You already know about that."

He took one of the traps from Ned's shoulder and showed him how to make the set. The bait was placed a few feet above the trap, in this case, on the trunk of the tree, so that to reach it the marion would almost certainly spring the trap. They tramped on, and Doomsdorf pointed out where a wolverine had come down the glade and crossed the creek. "You'll curse at the very name of wolverine before the season's done," Doomsdorf told him, as Ned paused to study the imprint. "He's the demon of the snow so far as the trapper is concerned. Nevertheless, you'll want to take a skin for your own use. It's the one fur for the hood of a parka—you can wear it over your mouth in fifty below and it doesn't get covered with ice from

**Paint this car for less than \$3.50**

ONLY 1½ quarts of Certain-teed Auto paint are needed to make such a car as this look like new. 1½ quarts of Certain-teed Auto Top dressing will give the top one coat and the seat two coats. That means less than \$3.50 for the paint and dressing. You can do the job yourself. Why drive a shabby looking car when it costs so little to keep it attractive? Whether it be metal, enamel, or wood work that needs brightening up, come in for the special Certain-teed paint for the purpose. You will be surprised at the small amount of Certain-teed paint required for any job. That's because Certain-teed has body and covers more surface than ordinary paint.

## Man's Conquest Of The Air Told In Pictures

Above you see the navy's new giant dirigible ZR-1 in flight over New York City; a rare sight for the metropolis. Capable of sustaining a flight for many hours, it can carry enough explosive to convert great skyscrapers into piles of junk. Below you see Roy Knabenshue's little gas-filled blimp with which he startled natives of the central states 15 years ago. Carrying one man and staying in the air for a few minutes it was considered the marvel of the age.

### Wife Seeks Divorce

Laura A. Moorhead, 1233 Ninth street, charges cruelty and neglect in her suit for divorce from Albert S. Moorhead, same address, filed in Common Pleas Court today.  
 In her petition filed through Attorneys Blair and Blair, Harry Ball the plaintiff complains that Moorhead has cursed and abused her and even assaulted and beat her besides, she declares, that he has constantly nagged in order to compel her to convey to him her real estate consisting of the property at the Ninth street address, asserting that he has so conducted himself that her neighbors and friends will not visit her in her home. Plaintiff further says that when she was sick he failed to take the proper care of her and prevented her from notifying her daughter, Mrs. Gilbert A. Edmunds, who then resided in California, of her condition.  
 In addition to a divorce she asks that defendant be divested of all interest in her property and that he be restrained from further cursing and assaulting her.

### Suit On Account Of Damages

George A. McCormick seeks judgment in the sum of \$1,502.15 against Kirk Gilbert in an action brought in Common Pleas Court today, \$1,179.70 of which he claims is due on an account and \$340 damages for alleged failure of the defendant to properly tend or cultivate a crop of tobacco on the land of the plaintiff in Nile Township.

Through Attorneys Blair and Blair the plaintiff asks that his claim for damages be made a lien on the defendant's share of the corn and tobacco crops.  
**Answer Filed**  
 Answering the suit brought by the state of Ohio on relation of C. O. Crabbe, Attorney-General, on behalf of General Lee against Kaps Bros. for compensation for injuries which Lee claims to have sustained in 1920 while employed by defendant, H. H. Kaps admits that Lee was in his employ only and not Kaps Bros., and admits he was injured in the manner alleged. The answering defendant further admits that at the time he was in arrears in his payment of dues to the Industrial Commission and then through Attorney F. C. Realty claims to have made a complete settlement of Lee's claim for compensation by the payment to him of \$125 in May, 1920, in addition to paying his hospital and doctor bill, besides \$132 to Lee in small payments, and denies he is indebted to Lee in any sum.  
 The separate answer of Percy Kaps amounts to a general denial as he disclaims that Lee was ever in his employ or by the firm of Kaps Bros.  
 The suit was brought to recover the sum of \$2,342.21, including a penalty of \$781.07 for failing to pay the award on Lee's claim made by the Industrial Commission.

# The Story In Pictures Of Dempsey's Victory Over Firpo

## The Knockout That Won For Dempsey

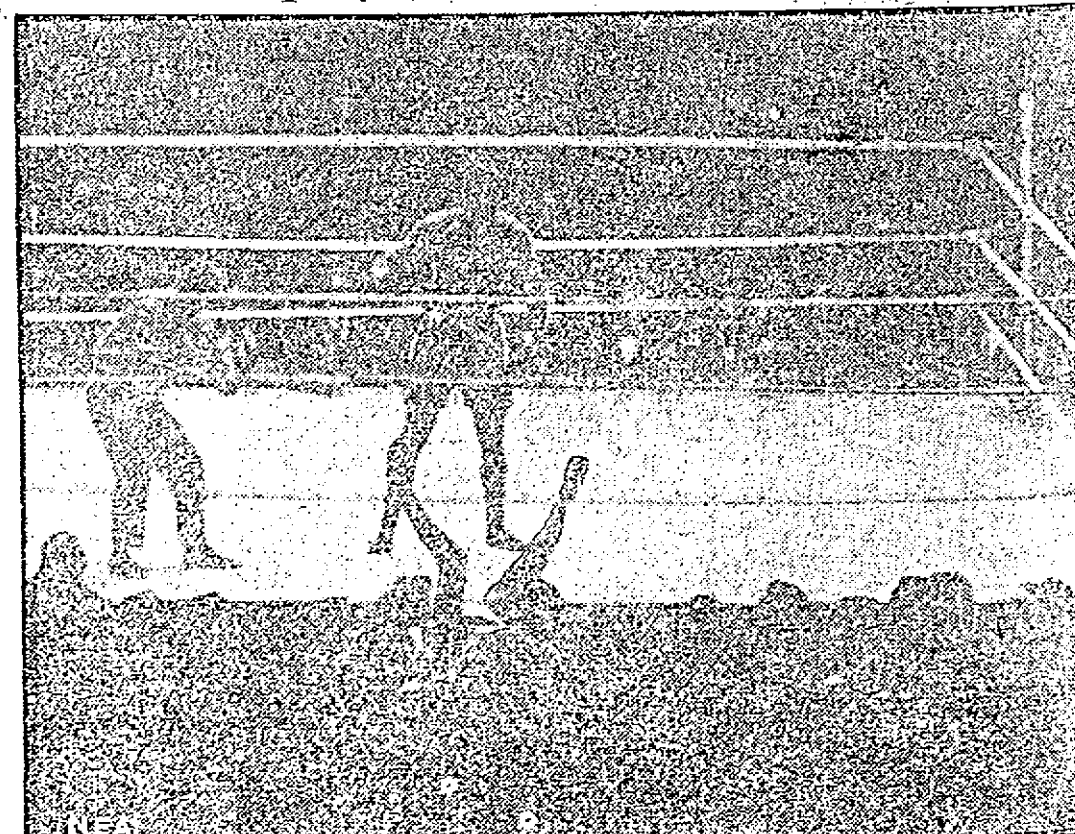

Jack Dempsey walks away as Johnny Gallagher, referee, counts ten over Luis Angel Firpo, Argentinian challenger for the heavyweight title. The knockout came after 57 seconds of fighting in the second round of the scheduled 15-round bout at the Polo Grounds, New York.

### Dempsey Did Not Hesitate

When the first bell sounded at the Polo Grounds championship fight, Dempsey tore in savagely. Before the huge crowd realized what had happened, Firpo was on his knees. This picture was snapped just after Jack had put over the blow that knocked Firpo down for the first of his many falls before the last one in the second round.

### When Dempsey Looked Defeat In The Face

Dempsey pitches heading through the ropes onto the shoulders of Kid McPartland, one of the judges of the fight sitting at the ringside. This was the first round of the fight after Dempsey had floored Firpo three times. The blow that sent Dempsey through the ropes was a terrific right high on the side of the jaw which came in rapid succession after a similar blow. And Firpo landed either of these blows on the "button" he would have been the new heavyweight champion of the world. As it was the bell ended the round a few seconds after Dempsey knocked out Firpo in the second round.

### The Wise Woman

#### Is A Real Joy

Because she keeps herself clean and sweet. She goes to Fisher and Streich's toilet goods counter and gets herself an ounce of lanolin—a little touch here and there—now and then—and she's as sweet as a baby's breath.

It's just wonderful to know that there's something that will not only completely rid one of all perspiration and body odors but will prevent them so that one may have a feeling of absolute security. And how offensive and yet how unnecessary those odors are, now that it's so easy to get rid of them with lanolin. Be sure to get lanolin at Fisher and Streich's for it isn't sold anywhere else—advertiser.

## TUBERCULOSIS

### Get Well in Ohio

Why Go West To Get Cured Of Tuberculosis? Climate has no advantage in the treatment of this disease. One climate is just as good as another. And Ohio climate is just as beneficial for the cure of this disease as the climate anywhere in the United States.

What counts most is proper treatment, and this can best be obtained in a sanatorium or hospital devoted exclusively to the treatment of tuberculosis.

The Rocky Glen Sanatorium, the oldest private tuberculosis sanatorium in Ohio, is an institution devoted entirely to the treatment of lung diseases. It is located in the hills of southeastern Ohio, where scenery, surroundings and atmosphere are ideal; where wholesome food, properly prepared, pleasant associations, proper rest, fresh air, and healthful recreation are associated under the watchful guidance of experienced physicians and nurses. Rates are very reasonable.

Send for booklet free describing its facilities. Learn about its splendid record. But do it NOW before it is too late.

GIANTS BEAT ALEXANDER  
CHICAGO, Sept. 17.—Baseball players of a decade ago, who were here to attend the unveiling of the memorial to Captain Adrian C. Anson, saw the New York Nationals defeat Chicago in a hit-raging game, 10 to 0. Grover Alexander, pitching ace of the local club, was unable to hold the world's champions after Chicago had tied the count and the visitors began to advance the plate by cracking out two hits behind three bases on balls and an error by Grantham. Chicago finally drove Scott off the mound. Thereafter, Chicago was unable to score, as Ryan and Nehf pitched effectively. Score: NEW YORK AB R H PO A

THAT'S A FINE PACK OF ROWDYIES YOU HAVE FOR FRIENDS—I DON'T WANT THEM IN MY HOUSE AT ALL.  
ANYWAY, I'M GOING TO USE THE TABLE TO CUT OUT SOME PATTERNS ON.  
I SUPPOSE I WON'T BE ABLE TO ENTERTAIN IN THE KITCHEN NOW.

Firpo Changes Mind; Will Not Fight Wills For Year  
NEW YORK, Sept. 17.—Harry Wills and his manager, Paddy Mullins, have decided that it might be all right for Harry to fight Luis Angel Firpo without holding out for a bout with champion Jack Dempsey, according to the plan suggested by Tex Rickard some time ago.  
But now Firpo has changed his mind. He is signed with Rickard to meet Wills but the articles are not definite and Luis Angel said last night that although he was perfectly willing to meet the negro fighter, he didn't think he wanted to meet him for at least a year.  
Firpo is going on a short tour through eastern Canada and will then make for the Argentine, where he will spend the winter.  
There is also one thing Wills does not want and that is to fight Firpo in Buenos Aires, because he figures he would lose either way down there. If he won the fight—well, Harry read the story about what happened to the Buenos Aires offices of several newspapers which denied that Firpo won the fight Friday night. Anywhere in North America Wills will meet him. But the biggest talk in the world of fistfuffs just now is concerning a return bout between Firpo and Dempsey. Many fight experts have expressed their belief since Friday that Firpo could beat Dempsey with six months or a year more of training.

Stars Nosed Out  
By McDermott Team  
McDermott defeated the Industrial Stars of Portsmouth in a bitterly-contested game on the McDermott diamond Sunday, 7 to 6 in eleven innings. The Stars got away to a five run lead when they put across four runs in the fifth inning, after having scored two in the four innings before. A. H. on balls counted with five hits off Brannan gave the Stars their four runs.  
McDermott rallied in the sixth and put across two runs, and came right back and added two in the eighth when they drove Frederick from the mound with four successive hits. R. Keyser went to the box with Frederick going to first.  
In the ninth McDermott tied the score. After Jones had fled, McDermott beat out a punt and went to second on Keyser's bad throw. He took third on a perfect punt by Smith and scored on Walt's sacrifice fly. Frederick came back to the mound in the tenth. In the eleventh with no outs, Jones cracked a two-bagger to left. Elliott plunked hitting for McDermott singled to center, scoring Jones. The feature of the game was the hitting of Wills who got a double, triple and home run in four trips to the plate. Brannan pitched a wonderful ball after the hit. The box score:

White Sox Making Plans For Next Year  
CHICAGO, Sept. 17.—The opportunity to get a cut in the world series money by finishing either second or third, is the cause of a great many clubs falling to try out promising players in the fall, just as long as against the Boston Red Sox, scored a 3 to 0 shutout, allowing only four hits.  
Crosby, a catcher who just arrived, has been put into the game to play Ray Schalk a rest. The brilliant Schalk has reached the stage in his baseball career, where he has just so many more good years left in his system and there seems to be no good reason why they should be wasted in contests that mean nothing to the Sox.  
Crosby has the actions of Schalk, and according to the veteran players on the Chicago club, has a fine chance to make good. He is an expert mechanically, has a wonderful arm and looks like a fair hitter.  
Every day finds one or more recruits reporting to the Sox and immediately upon showing promise they will get a chance to go into action.  
So far the two recruits tried out by Manager Gleason have done very well. Glenwenner, in his first start against the Boston Red Sox, scored a 3 to 0 shutout, allowing only four hits.

COLUMBUS, O., Sept. 17.—Fifty-five up practice, kicking, passing and punting. Those Workman and Ollie Wilce for the first football practice of the season of Ohio State's squad. The men this morning were given a lecture in fundamentals and this afternoon were put through mild limbering practice or center.

No Money In Sight; No Boxing.  
CLEVELAND, Sept. 17.—An investigation into the circumstances leading up to the cancellation of the twelve round boxing contest between Johnny Dundee, featherweight champion of the world, and George (K. O.) Chaney, Baltimore lightweight, which was to have come off at Newburgh Heights last Saturday night was under way today.  
County Prosecutor Edward G. Stanton was prepared to confer with Sheriff Charles B. Stannard in an effort to learn why the fight did not come off, where the advance seat sale money went and who was responsible. In the meantime, Newburgh Heights officials and deputy sheriffs, armed with a warrant charging "with obtaining money under false pretenses" searched for George Shingler, promoter of the proposed fight. The warrant was issued at the instigation of Mayor C. E. Zimmerman of Newburgh Heights who intimated that piper warrants would be sworn to.  
Chaney and Dundee refused to box because their cash guarantees had not been met.

Where Is This Boy?  
CLEVELAND, Sept. 17.—Somewhere in the sticks is a man who can lick Jack Dempsey.  
So at least thinks Jerry Sachs, Cleveland boxing promoter. And Jerry's out to find him.  
Sachs is bringing a flock of husky young six footers, all his pupils the scales at more than 150 pounds, to Cleveland for his heavyweight amateur show at Public Hall, October 2.  
The winner of the tournament will be graduated into the professional class right off the reel, Jerry promises.  
"We intend," says Sachs, "to bring him along by slow stages until he's ready to meet the better class of heavyweights. Dempsey, of course, is the final goal."  
Boxing experience is not essential. Endurance, stamina, courage and determination to succeed are far more important qualifications for all candidates.  
"There are a lot of boys 'round the country who would make good in the ring if only given a chance to show their stuff. And in this party were to afford them that opportunity."  
Jerry's exhibition will be the first staged in Cleveland since last spring when Mayor Fred Kohler clamped the lid on all amateur bouts.  
The ban was lifted just the other day.

Wells To Stage Comeback?  
Frankie Wells has come back. And Frankie says that he means business.  
He further says that he is off everything that will tend to tear him down or weaken him and that his mind is now free from the burden of the serious business of training.  
And this decision on Frankie's part is likely for the reason that he is planning to take on Frankie Bob or Dayton, the fast little youngster who trimmed Jack Wolfe to a frazzle a few days ago.

Latest Batting Averages  
CHICAGO, September 17.—(By the Associated Press.)—Jogers Horus, by the St. Louis ace, is leading the National league in batting with an average of .334 and hits fair to hold the advantage to the end of the season, just so much through improving his own average as through improving the team's. Horus, who was on normally's heels last week, dropped eighteen points during the week and likewise dropped into third position with .305. Bottomley, a team-mate of Horus, remained stationary at .309 and was automatically carried into the runner-up position. The averages include games of Wednesday and one of players who took part in 30 or more games.  
Or Williams of Philadelphia, is away out in front of everybody in home runs with 37 and he also leads the National league in total bases, which include 14 doubles and 11 triples. Pop Warner of New York, leads the run getters with 110 and Corey of Pittsburgh is second with 107. Corey broke the base stealing tie he had on with Grantham of Chicago and now leads with 41. The Chicago club not being able to furnish the run getters of New York, prove his 30 of last week. McGraw of Boston shows the way in sacrifice hitting with 37. Other leading batsmen:  
Roush, Cincinnati, .353; Friesch, New York, .347; Fournier, Brooklyn, .347; Hargrave, Cincinnati, .342; Young, New York, .341; Traynor, Toledo, .341; Grimm, Pittsburgh, .335.  
Harry Heffman, of Detroit, has quietly moved Babe Ruth from the leadership of the hitters of the American league. Harry succeeded in improving his average by three points during the week and slipped out into the lead with .305 while Babe was dropping 8 points and slipping into second position with .292. In third comes the Cleveland trio, Sewell with .374; Spencer with .360 and Jamison with .356. Ruth however leads in total bases with 326; in home runs with 25 and in runs scored with 128. In fact he is topping almost every department of the hitting except the actual batting average.  
Williams of St. Louis is in sixth position with .255; is in second place in home runs with 27 and also second in total bases with 295. Eddie Collins of Chicago leads down seventh place but leads in stolen bases with 39 and likewise tops the list of sacrifice hitters with 35. Other leading batsmen are:  
Mannix, Detroit, .344; Cobb, Detroit, .330; Stephenson, Cleveland, .326; Harris, of Boston dropped out of the charmed circle of the first ten.

## NOW AND THEN

**A**NTICIPATING our invitation, Brer Johnson of the Circleville Democrat, has been down to Portsmouth several times recently, he says, and even this far straying from his somnolent village leaves him in the stubborn conviction that gravel roads are preferable to Scioto county choppy brick highways. If he will prefer the dusty and grimy old ox-team roads to the vibrant undulations of our short stretch of concrete, of course that is his taste, as the old woman said when she kissed the calf, and still can't help it. Still we commend to him this reading from his near neighbor, the Chillicothe News-Advertiser.

"Members of the county engineer's office, in discussing the proposition to treat the Columbus-Portsmouth pike all the way with a tar-preparation, are of the opinion that the road, if kept up and maintained, is a mighty good road, but the process is expensive. On the other hand, if the road is not maintained as it should be it will be a mighty bad road. Some of the members of the division engineer's office in this city hold practically the same opinion."—Chillicothe News-Advertiser.

Aye, there is the rub of it all, a gravel road, tarred, "is a mighty good thing if kept up and maintained, but an expensive process." Stripped down that means impracticable and excessively costly under the conditions of these days.

Scioto county once, yes, up to 1903, indulged in gravel roads. Every one of them, even those in the remotest parts of the county, has disappeared or else been completely rebuilt as often as the county commissioners could find money to do so. The brick road, laid in 1909 is still there, "functioning" with little wear and not a dollar has been spent on it for repairs in all of the 14 years it has been down. That too in the face of the fact that it is one of the busiest thoroughfares in all Ohio, thousands upon thousands of automobiles and trucks passing over it every day.

The Times, nor anyone connected with it has any financial interest, direct or indirect, in or with any brick plant. It has always stood for brick roads on the simple proposition that they were the most permanent and the most economical, under existing conditions of road traffic. Economy is not determined by first cost, but by expense of maintenance and repair over a course of years. In reaching a right conclusion on this basis we must include not only the direct expenses, but also the indirect, of the investment. The automobile cuts a large figure in this. It has come to stay, it is in daily, constant use. It costs more to run an automobile on a gravel road than on a brick road, costs more in the wear of the tires and a great deal more in the consumption of gasoline. By actual test we know that an automobile going 19 miles on a level gravel road with just a scum of fresh dressing on it, will run up to 22 on a level brick road. Nor is that all the incidental saving on the side of brick. There's the matter of soiling and damaging clothes. There is little dust on brick, it is simply all enveloping on a gravel. There are scores and scores of people in this town who will not motor to Columbus during a dry spell because of the soiling of their clothes and the intolerable dust.

Brick, on a heavily traversed highway is a necessity of modern growth; gravel throws dust in the eyes of progress.

Tebus exclaim with John L. Sullivan, grandest Roman of them all, "Thank God It Was An American."

It is written in the stars. Luis Angelo Firpo might have known better than to think that after we had shown his compatriots how to lick the Spanish, he had the way to lick us Irish.

Happy memories of the old rollicking days of the opera bouffe are recalled in the sight of the King of Spain joining a rebellion in his own kingdom. By-the-way, that Alfonso King seems to be a sick sort of a citizen as we irreverently say in this free and easy land, where every man is a sovereign.

Life is a scream. A convict in the Joliet penitentiary, sentenced to die, for murder, has won first prize in a funny picture contest, fermented by a Chicago paper. Now, watch the sob sisters and the maudlin men start an outcry for his pardon; and the joke of it is it will be successful.

Early prospects are that there is going to be a plentiful crop of banditry this winter.

All things come 'round, if the wait is long enough. Plasterers began work on The Times addition Saturday.

Nothing like standing on one's dignity. Mexico refuses the invitation of all her South American neighbors to join the league of nations because England is a member and she has no diplomatic relations with that country. Quite proper and admirable.

## New York-Day-By-Day

BY O. O. MCINTIRE

NEW YORK, Sept. 17.—A page from the diary of a modern Samuel Pepys. Up bedtimes and with my wife to visit Hogg's for a breakfast of corn pone and a hashed hamlet, and then away in a gasoline wagon to Ossining to visit Irvin Cobb.

Strolled over the countryside and Irvin gathered some roses for my wife and gave her an autographed book for her mother. And Will, seeing an artificial lake, thin with water, inquired if there were danger of mosquitoes biting the fish to death.

All the afternoon lounging about discussing this and that and our host regretting his original name of Josh had been changed to Irvin. Mary, the cook, who once cooked at the White House, fashioned a snack and then back again to the city.

In the evening to Jim and Jack's inn and the fairest coat room, John Emerson and Anita Loos. So to see the film "If Winter Comes" and then to bed.

Ossining visitors are greeted at every approach to the town with signs reading: "Ossining—Noted for Its Fine Schools for Girls." One gathers the town is trying to forget that for which it is chiefly noted—Sing Sing prison. The gray, bleak buildings can be seen from almost every street. The term Sing Sing is a corruption of the old Indian word Sing Sink, which has a certain appropriateness, for it means "Rocky Road." People in Ossining—which is quite a fashionable suburb adjoining Tarrytown—never refer to Sing Sing.

It is unusual to see how big cities are dwarfed by their proximity to New York. There, for instance, is Yonkers, which boasts a population of 100,000. Getty's Square, the busiest section and focal point of traffic, is as lively almost as Broadway and Forty-Second street. But, because Yonkers is on the upper fringe of Manhattan, people think of it as a suburban village. It is the New York habit to gaze through the wrong end of the telescope in viewing its neighboring cities.

Driving through Tarrytown one passes many estates of millionaires—the Rockefeller's, Goulds, and Frank Vanderlip—who even has a theatre on his place. The houses cannot be seen from the road. There are glimpses of vast greenhouses which create a longing somehow for a singlet and well-tanned pelisses. And there are the lodge-keeper's houses at the gates. But around all the estates is the air of secrecy. It is rather depressing. And it increases one's admiration for the sparkle about the little white cottages and yards near the road, with their pecking about the door and lovable dogs that come

But Now—  
Little Willie let no grass grow under his feet when uncle came for a visit, before rushing up to him with this:  
"Uncle, make a noise like a frog!"  
"Why?" asked the old man.  
"Cause when I ask daddy for anything he says, 'Wait till your uncle croaks!'"

It's just about reached the point where automobilists don't mean nothing but motor with traffic. Solomon winz purly wise. He knowed that out of 100 wives there was bound to be always one in a good humor.

## Doc Koko's KOLUM

SEPTEMBER

The goldenrod is yellow.  
The corn is turning brown,  
The trees in apple orchard  
With fruit are bending down.

The gentian's bluest fringes  
Are curling to the sun,  
In dusky pods the willow  
Its hidden silk has spun.

The sedges flaunt their harvest,  
In every meadow nook;  
And asters by the brookside  
Make asters in the brook.

From dewy lanes at morning  
The grapes' sweet odors rise;  
At noon the roads all flutter  
With yellow butterflies.

By all these lovely tokens  
September days are here,  
With summer's best of weather  
And autumn's best of cheer.

The street-car conductor's change  
Was running short. A young mother  
With her baby in her lap handed him  
A half-dollar.

Conductor—Is that the smallest  
you've got?  
Young Mother—Well, I've only  
been married a year.—Kasper (Stockholm).

They Hear It Coming—  
Tud—That's a dreadful second-hand car 'em bought.  
Ned—He says he'll never have an accident, for it makes so much noise everybody gets out of the way in time.

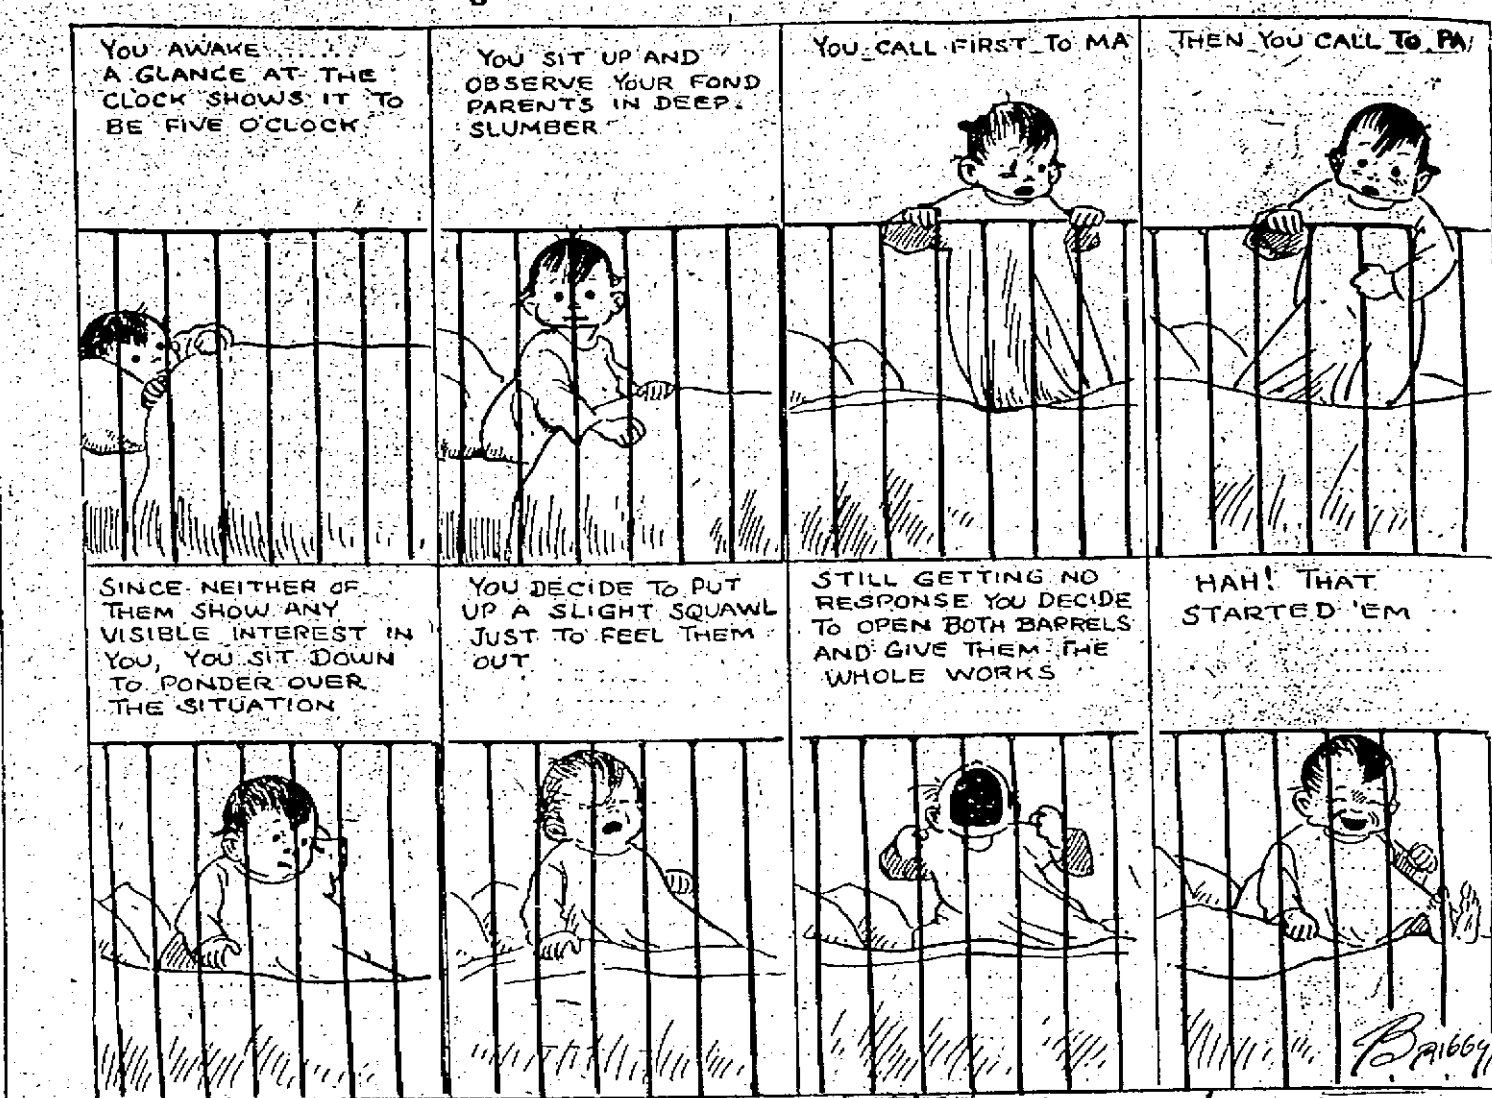

Overheard at a Musicales  
"Aloud sings with a great deal of expression."  
"Yes, she does; but it's the kind that you must close your eyes to appreciate."

More or Less True  
The reason some men object to giving their wives money for a new dress is because they need it to help some get-rich-quick promoter get rich.

Two By Two  
In Sunday school class in a Western town the young woman in charge asked:  
"And how did Noah spend his time in the Ark?"

"Fishin'" was the suggestion of a boy.  
"A very reasonable suggestion," said the teacher.  
"But," continued the boy, "he couldn't have caught much."  
"What makes you think that?"  
"Because," answered the lad, knowingly, "because you see, he had only two worms with him."

## Tedious Pastime — Waiting For The Rest Of The Family To Get Up — By Briggs

Observations of Oldest Inhabitant  
Yes, I kin remember when eye-strain came from reading—but fashions were very, very different in those days.

The Ananias Club  
"My son-in-law is the most perfect minn I ever knew and I never yet have found any fault with him," said his wife's mother.

Out of Juice  
"Here, boy," said the wealthy motorist, "I want some gasoline, and please get a move on! You'll never get anywhere in the world unless you push. Push is essential. When I was young I pushed and that got me where I am."  
"Well, guv'nor," replied the boy, "I reckon you'll have to push again, 'cause we ain't got a drop of gas in the place."—Black and Blue Jay (John Hopkins).

## BERTON BRALEY'S DAILY POEM

## The Doubt

By Berton Braley  
TIME was when I was ready  
For any old adventure;  
When I was brash and heady,  
Oblivious of censure.  
Now, I figure chances  
Down to the smallest fraction,  
I weigh the circumstances  
Before I get in action.

TIME was I chased illusion  
And thought advice was needless,  
And plunged into confusion  
With eager youth and heedless;  
But now, before I journey  
In fantasy's domain,  
I talk with my attorney  
And ask for his opinion!

ONCE was most imprudent,  
As young men, I suppose are;  
But now I am a student  
Of what the "cons" and "pros" are.

And from a lot of thumping  
I've gained some erudition,  
I'm not so quick at jumping  
At each new proposition.

I've learned to curb my hurry  
And thus avoid a blunder,  
And yet—and yet I worry  
And cogitate and wonder;  
I wish some kind adviser  
My load of doubt would shoulder—  
Say, am I getting wiser,  
Or merely getting older?
